

Key Features:

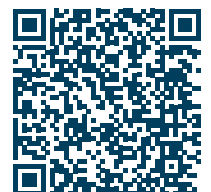

- Anodised aluminium construction
- Polycarbonate lids to enable visual inspection of fluid
- Optional analogue volume sensor

Kystdesign 16 Litre Compensator

IHPU / DWP and Accessories

The 16 litre Kystdesign compensator is a positive pressure compensator manufactured from anodised aluminium.

Fitted with a polycarbonate lid, it allows for visual inspection of the fluid, an optional analogue sensor allows remote monitoring of the fluid volume.

Specifications

Dimensions	Length (without volume sensor)	472mm
	Length (with volume sensor)	588mm
	Width/diameter	360mm
Weight	Weight (empty)	25kg
Material		Anodised aluminium
Active volume		15.8L
Pressure Empty		0.15 bar
Pressure Full		0.25 bar
No off hyd. Connection ports		4 (3/4 BSP)
Max operational pressure		1.5 bar

System Components
